Oceania's leading supplier of OCTG and Linepipe

#### Marubeni-Itochu Tubulars Oceania Pty Ltd

Marubeni-Itochu Tubulars Oceania (MITO) is one of the largest Oil & Gas steel tubular suppliers in the Oceania region. We offer a unique concept of supply chain management designed to suit customer needs whilst adding value to the project. We provide support at all levels of the supply chain - from sourcing product, to supply, logistics, storage, delivery, just-in-time on location.

Our Head Office is located in Perth, with branch offices in Adelaide, Brisbane and Auckland (NZ).

Our goal is to be respected for our strength, professionalism, responsiveness and integrity. We are committed to stimulating the growth of our divisions, customers and suppliers, by developing cooperative relationships and encouraging creative thinking.

"Our goal is to be respected for our strength, professionalism, responsiveness and integrity."

# JFEBEAR with CLEAR-RUN Premium Connection Advanced Tubular System

The Solution to a string of Problems

The Clear-Run™ Advanced Tubular System represents a milestone in OCTG best-practice, providing a proven high value alternative to dope based processes.

- Reduces down-hole contamination
- Reduces OCTG preparation cost
- Increases tubular running efficiency
- Provides a cleaner, safer workplace while minimizing the environmental impact.
- System tested to ISO 13679 CAL IV
